

# THRIFTY POP 6

## Six Ounce Popper

Although the Thrifty Pop 6 is economical to purchase and operate, it uses the latest technology to insure years of service. The stainless steel and aluminum construction, along with tempered glass panels, provide for easy cleaning and exceptional durability. The Thrifty Pop 6 is easy to fit into small area due to its 20" wide by 14" deep footprint. The Hard-Coat anodized aluminum kettle means superior performance while providing ease of cleaning. The stainless steel warming deck is heated by a 50 watt element that will keep popcorn warm and fresh for long periods of time.

Thrifty Pop 6

This full-featured machine also includes a removable clean-out tray for easy cleaning and an old-maid drawer to catch the un-popped kernels. The Thrifty Pop 6 utilizes a 50 watt R20 presentation lamp to highlight the popped corn for added impulse sales. The Thrifty Pop 6 will cycle in approximately 3 minutes and produce 113 ounces of popped corn in an hour.
