

## **Prunus** Series

Refrigerators with Glass Doors

Prunus Series Cabinets feature Chillers & Freezers with Glass Doors with major characteristics such as easy inventory control & effective presentation of the stored materials!

Prunus Series features Refrigerators with the glass doors as their common characteristic. They offer the benefits of the efficient inventory management , as well as, the effective promotion of their contents!

For 2019, we present 4 new models operating with the Ecological Refrigerant R290, offering at least 20% savings in Energy Consumption!

## Characteristics

-  Door with triple glazed glass door and GN 1/2 opening **1**
-  Evaporator protected against corrosion on Chillers **2**
-  New style Condenser with low maintenance requirements (For models with R290 refrigerant) **3**
-  Forced air circulation technology **4**
-  LED lighting system **5**
-  Embedded thermostat for easy operation and cleaning **6**

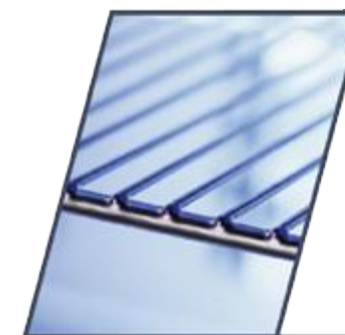

## Transformation Kits & Accessories (Available separately)

### Kit Patisserie

With the use of kit patisserie, all standard depth Cabinets ( / SL models excluded) can accept Euronorm trays ( 60cm x 40cm) for Pastry and Bakery purposes.

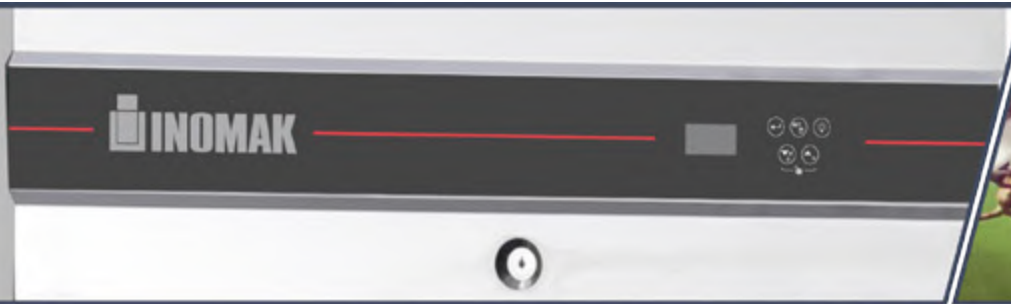

### Stainless Steel Shelves

Available for all Cabinets models and Serii , they are made of AISI 304 Stainless Steel.

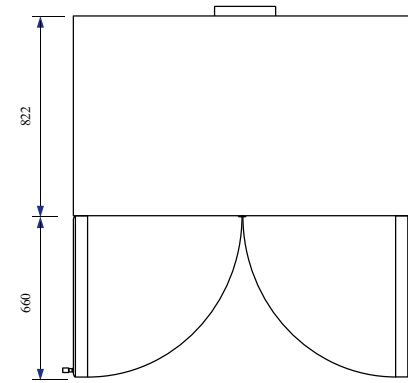

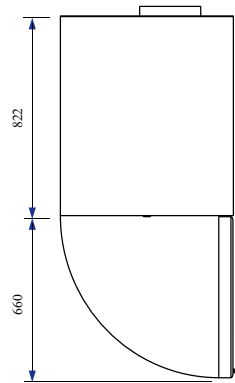

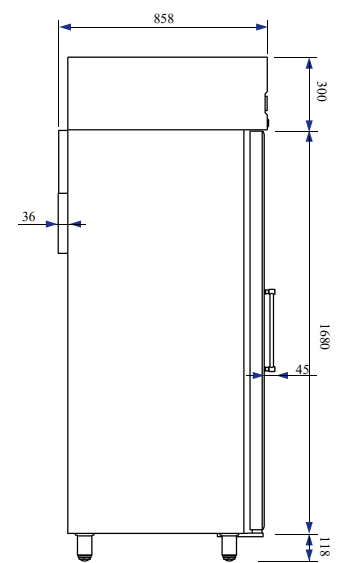

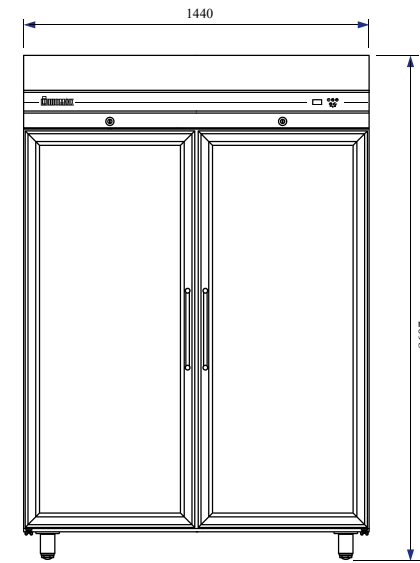

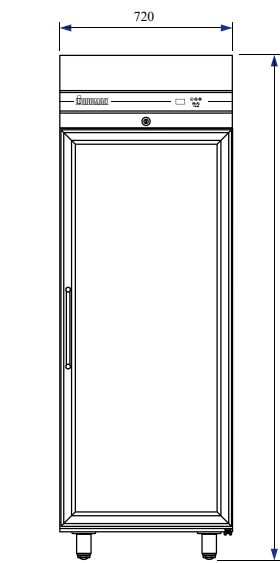

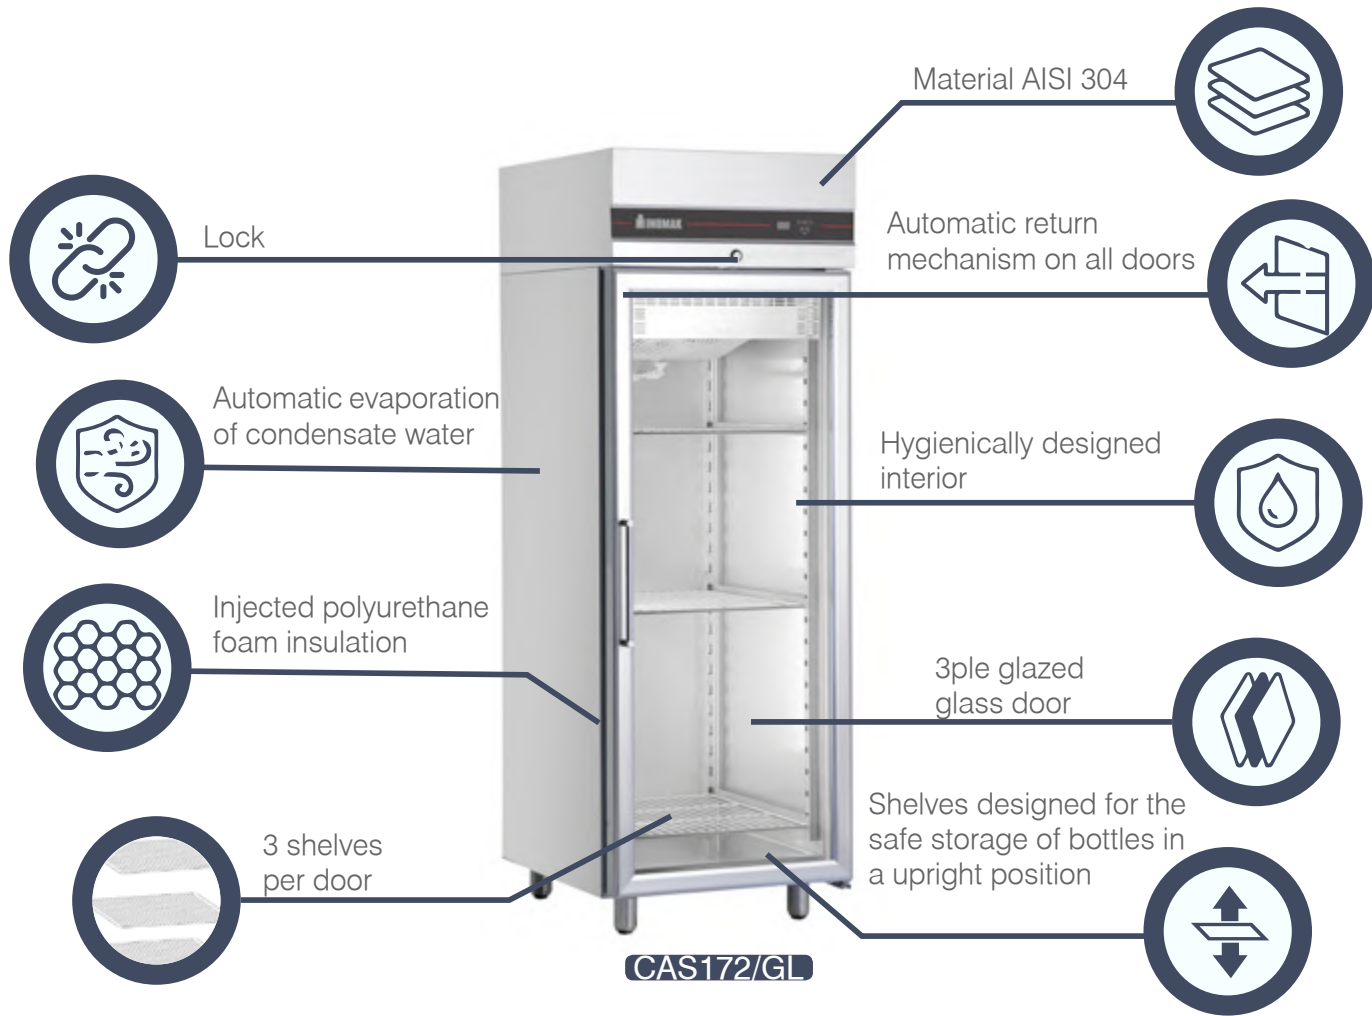

### Hanging Kit

With the use of the hanging kit, the preservation and also freezing of large cuts of meat as well as various meat products becomes easier.
