To whom it may concern,

EFTsure™ is dedicated to helping organisations identify and protect themselves against risk and error that occur in the payment process. Our Best Practice Know Your Payee solutions provide real-time alerts and messaging against broad and accurate payee relationship data. We also assist businesses with verifying supplier data, streamlining their supplier on boarding process and ensuring payee compliance.

This is to certify that **All Food Equipment** has completed account verification through EFTsure's best practice Know Your Payee Solution and is now an **EFTsure™ accredited supplier.**

This certificate is granted to suppliers to enable them to inform their customers that they have been verified by EFTsure™. Being EFTsure™ accredited means that the supplier has undergone the EFTsure™ supplier verification process which ensures that the account details held in EFTsure's verified database are correct. Payers utilising EFTsure™ technology who make payments to this supplier will be able to perform seamless automatic real time checks each time they pay the supplier to confirm that the account details they have for the supplier and that they are paying into indeed belongs to the supplier.
