HBH850 Series Summit® High-Performance Blender

One
touch to perfect
consistency
with AutoBlend

Monitors Blender's Power & Speed

Auto Blend "One Touch Sensor Blending" is a patent-pending technology for perfect drink consistency

Hundreds of pre-programmed cycles for maximum flexibility

Quiet Shield™ sound enclosure reduces blender noise

Wave~Action® system is designed to continuously force mixture down into the blender for a super smooth drink profile

USB port for future program updates

Hamilton Beach

COMMERCIAL

**Quiet Shield™
Sound Enclosure**
Reduces blender noise

Magnetic Sensor
Reduces careless clutch grinding when poperators are rushed.
120V model: turns off when jar is removed
230V model: turns off when quiet shield is lifted

Airflow Baffle
Constantly circulates cool air around the motor for back-to-back blending and longer blender life

Cavitation Control
Detects when cavitation occurs and prompts the operator to add more liquid.

**Converts For
In-Counter Use**

**Super-Creamy
Drink Profile**

The Wave~Action® System, along with speed and blade design, break down ice from a granita texture to a creamy drink profile

Nonskid feet
hold blender securely in place

AUTO BLEND ONE TOUCH SENSOR BLENDING
