

# Airdryer

by Andom

Models: M-88 Manual and M-88A Automatic  
Electric Hand Dryer

## Budget Range

### Manual - Model M88

Warm air hand dryer, Push-button operation, Timer at 45 seconds, White finish, ABS cover.

### Automatic - Model M88A

Warm air hand dryer, Infra-red sensor operation, White finish, ABS cover.

Compact warm air hand dryers with an excellent life-cycle. They feature low maintenance, and absence of noise and vibrations. Their accurate design gives them the best performance in the machines of their class, backed by a one year parts and labour warranty. Balanced airflow and output speed avoid burning air and give a soft and comfortable drying temperature to the user's hands. They offer the maximum hygiene with the minimum consumption.

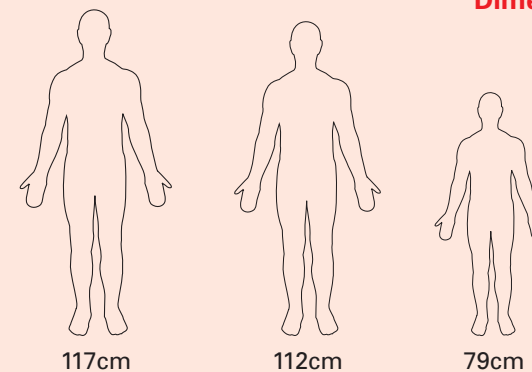

### Electrical Features

Voltage .....	240V, 50Hz
