

Which Blender is Right for You?

1-14 per day frozen drinks
15-24 per day frozen drinks
25-49 per day smoothies + frozen drinks
50-74 per day smoothies + frozen drinks + coffee
75-99 per day any qty ice cream + IQF fruit
100+ per day

908®

HBB908

25 second daiquiri
 3/8 Hp
 44 oz. polycarbonate
 rubber clutch

RIO®

HBB250

20 second daiquiri
 1/2 Hp with pulse
 44 oz. polycarbonate
 rubber clutch
 Wave~Action™ System

HBB250S

20 second daiquiri
 1/2 Hp with pulse
 32 oz. stainless steel
 rubber clutch
 Wave~Action™ System

TANGO®

HBH450

15 second daiquiri
 1 Hp with pulse
 48 oz. polycarbonate
 metal clutch
 Wave~Action™ System
 timer/
 auto shutoff

TEMPEST®

HBH650

12 second daiquiri
 3 Hp with pulse
 64 oz. polycarbonate
 metal clutch
 Wave~Action™ System
 timer/
 auto shutoff
 jump cycle
 jar pad sensor

Quiet Shield™
 SUMMIT®

HBH850

10 second daiquiri
 3 Hp with pulse
 64 oz. polycarbonate
 metal clutch
 Wave~Action™ System
 timer/
 auto shutoff
 cycle blending
 jar pad sensor
 memory card
 auto blend
 cavitation control
 converts to under-counter

REVOLUTION®
 Shaver Blender

HBS1200

15 second daiquiri including ice shaving
 3 Hp
 64 oz. polycarbonate
 metal clutch
 Wave~Action™ System
 auto shutoff
 cycle blending
 memory card
 hopper sensor
 drain sensor

Step-up features:

Timer with Auto Shutoff stops under- and over-blending problems and lets operators multi-task while the blender is on.

Cycle Blending takes the guesswork out of popular drink profiles. Each cycle contains pre-programmed pulses & speeds that maximize results and minimize mistakes.

Memory Card remembers a company's unique drink profiles for consistent blending results every time.

Jar Pad Sensor helps prevent "wear and tear" from operator misuse. It turns the motor off when the container is not in place to reduce careless clutch grinding.

Wave~Action™ System has a unique container and blade design for smooth results with no ice chunks.

Hopper Sensor prevents the lid from being opened when the machine is operating.

Drain Sensor automatically sends melted ice in the hopper down the drain – not into drinks. Unique design resists clogging, which can cause backlogs and flooding.

Quiet Shield™ sound enclosure reduces blender volume so effectively that this blender is the quietest in its class.

Auto Blend is a feature that stops the blender when drinks reach the perfect consistency to help prevent over-blending and watery results.

Cavitation Control automatically adjusts the blending speed if cavitation occurs to help prevent under-blending and minimize blending time.

Express Care Service Program

During the product warranty dial 1-866-285-1087 toll-free to speak to a member of our highly trained technical staff. If minimal on-site maintenance cannot be performed, we'll ship a replacement product to your location. Continental US, Alaska and Hawaii only. Limitations and exclusions apply. See Operations Manual for details.
